

EpicP4C0:

"EpicP4C0": So I'm reviewing a website?

"EpicP4C0": Oh

"Samistine": yes

"EpicP4C0": Contact page

"EpicP4C0": 'Grettings!'

"EpicP4C0": Spelling'

Resolved: Corrected the spelling of 'Grettings' to 'Greetings'

"Samistine": keep looking

"Samistine": if you want

"EpicP4C0 [Builder]": About Me on Main, last sentence, "puting"

Resolved: Corrected the spelling of 'puting' to 'putting'

"EpicP4C0": At the very bottom of the page, I think it's best to remove the box and put the phone number only in the contact page

"EpicP4C0": Unless it's required, it would force employers to navigate through the page

"EpicP4C0": The Cover letter and the Resume are the exact same?

"Samistine": That was an issue

"EpicP4C0": Maybe add a Link to download a PDF?

"Samistine": Sure, I like having the contact info on every page

Partially Changed: Added download link to pdf file containing resume. Did not mess with contact information as it looks great the way it is. Removed cover letter as I felt it would need to be specific to the company that was trying to hire me. The main page serves as my introduction to employers.
